Rental with added value

What is it?

A major edge by Synergy: our equipment doesn't come alone! If you're looking for advice, trainers, and support for the use of the equipment you rent, it's possible. In addition to benefiting from optimized formwork plans with a minimized budgetary impact, your internal teams will quickly progress with the help of Synergy trainers. The extensive expertise of Synergy Formwork and our commitment to providing outstanding service continuously elevate the quality standards of this industry.

S Y N E R G Y

Built on solid foundations

At Synergy Formwork, we aim for excellence and overachievement. To meet the highest industry standards, we have embraced clear and sustainable core values that carry our purpose into every project we undertake. We take great pride in promoting our values and their impact on the lives of our employees and partners. Furthermore, our company also benefits from a shareholder committee consisting of 20 individual all with numerous years of experience in their respective fields. Their deep expertise brings immeasurable value to our company, allowing us to make informed decisions and to navigate successfully!

SYNERGY

Our success is directly linked to our team of seasoned professionals who work passionately to make your projects successful too.

Our distribution center at your service.

At Synergy Formwork, our commitment goes beyond merely renting equipment. Our distribution center, with its unmatched agility, is designed to provide you with comprehensive expertise and personalized support. We firmly believe that the success of a formwork project relies on the combination of high-quality gear and specialized knowledge. That is why we make our experienced trainers available to help you optimize the use of our equipment.

By choosing Synergy Formwork, you benefit from the expertise of a company determined to raise the industry's standards.

Together, we are building the future, project by project.

The Outcome of Vital Partnerships for Our Sustainability

«I am pleased to congratulate you on winning the 'Elles Reconnaittent' award and to recognize your contribution to the progression of women in the construction industry. Your involvement sets an example for both women and men working on construction sites and for the entire province of Quebec.»

Diane Lemieux –CEO, CCQ

«Just a quick note to mention the excellent quality of work during the erection of the tower crane at the 1600 D'Estimauville site in Quebec City. A flawless job, not only in the delivery and transportation sequence but also in the assembly and, of course, in terms of safety.»

Mario Gaudreault – Safety Officer, EBC
